

The Fifth Annual CFMM Winter School

February 22nd – 24th, 2019

Western University's Centre for Functional and Metabolic Mapping is pleased to once again bring you this exciting One OF A KIND opportunity to participate in a hands-on Ultra High Field MR training program at Canada's ONLY lab of this kind. CFMM puts a Siemens 3T, 7T and 9.4T scanner all within steps of each other for you to work with and study.

This is a **SCHOLARSHIP** Program that focuses on topic such as: Hardware, Device Testing, SAR, Pulse Sequence, Shimming, Spectroscopy, Susceptibility Based Contrast and more. Applications are open.

Packages may be found at <http://cfmm.robarts.ca/cfmm-winter-school/winter-school-2019/> and should be submitted to cfmm-winterschool@robarts.ca no later than January 4, 2019 for consideration.

Further information may be found on our website at: <http://cfmm.robarts.ca> and inquiries should be addressed to cfmm-winterschool@robarts.ca
